DUMPSTER TIPS

1.

City/Town Permits

Many cities and towns require a permit to place a dumpster on the street or sidewalk. It's in your best interest to check with your city or town before ordering if a permit is required.

2.

Questions to Ask Before Ordering

Be sure there is enough room for the dumpster as well as the delivery truck. A few good questions to ask yourself are, "Where is it going to be placed?", "Is there enough space for the truck to drop the dumpster?", "Are there any overhead wires, trees, or other hazards that could cause an issue?", "Is there enough room to open the door to the dumpster?"

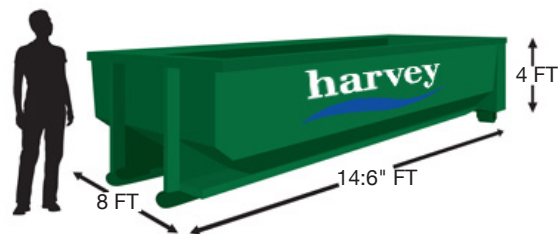

3.

The Right Size Container

If you're in between sizes, we recommend going with the larger size. We find that customers usually have more debris than they think.

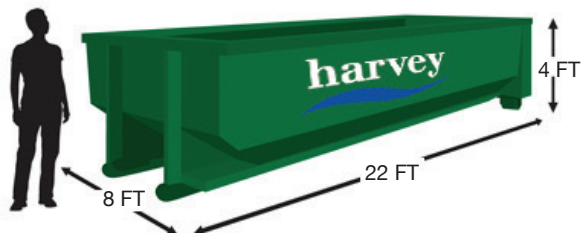

- ✓ Great for attic, basement, or garage clean-outs
- ✓ Holds about five pickup truck loads
- ✓ Good for small/narrow driveways or space constrained locations

15 YARD

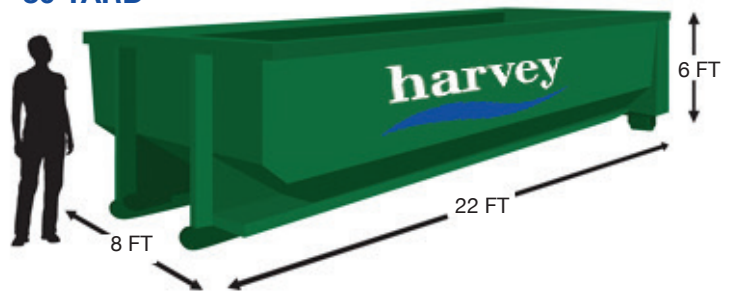

- ✓ Ideal for small construction projects
- ✓ Great for clean-out projects or kitchen/bathroom remodels
- ✓ Good option for roofing or landscaping projects

20 YARD

- ✓ For large construction and demolition projects
- ✓ Great for large clean out projects
- ✓ Requires larger driveway

30 YARD
